

Hot Bearing Grease **diamant**[®]

Version: 03.09.2025

High-viscosity EP lubricating grease for high temperatures with a wide range of applications. High shear stability and oxidation resistance. Protects against wear and corrosion.

Use

For applications that require protection against contamination from water and solid dirt under shock load and vibrations.

Base Oil	Mineral Oil
Thickener	Lithium soap
Drop Point	ca. 190° C
NLGI	3
Temperature Range	-20 to +130° C, slightly higher if lubrication interval is reduced
Identification	KP 3 K-20

Properties:

Water-repellent

Shear stable

Silicone-free

Light brown

adhesive
