

Special Thread Cutting Paste **diamant**[®]

for hand drilling

Version: 09.09.2025

Areas of application

Semi-paste cutting agent based on water and soap for machining work. The paste enables a clean cut and extends tool life.

Examples of use

Drilling, sawing, broaching, milling, and thread cutting of materials such as VA, chrome-nickel alloys, tool steels, HSS, titanium, copper-beryllium, Hastelloy, zirconium, etc.

Must be used undiluted. Apply directly from the tube to the surface to be machined. Does not leave an oily surface.

Storage temperature: 5 up to 30°C

Properties

Petroleum-free

Halogen-free

Sulfur-free
