

Colloidal Graphite Paste **diamant**[®]

Anti-Seize

Version: 09.09.2025

Areas of application

Multi-purpose lubricant with good temperature resistance.

Examples of use

Steam control valves, roller bearings on superheated steam ironers, spindle threads, gears, roller and plain bearings.

Base oil	Mineral oil
Thickener	Lithium soap, Graphit
dropping point of the carrier fat	200° C
NLGI	3
Temperature range	-20 up to +130° C

Properties

Good adhesion

Oxidation
resistant

Wear stable

Silicon free

PTFE-free

Color: Black
