

# Engineer's Marking Paste SF Sprayable **diamant**<sup>®</sup>

- ✓ Quick apply by using a spray gun
- ✓ For surface inspection

Version: 10.09.2025

## Application

- After grinding, remove the grinding residues and apply lapping paste between the machined surfaces.
- The surfaces are moved together and then separated again. The uniformity or unevenness of the paint application or imprint can be used to check the surface quality or fit accuracy achieved.
- The consistency of the blending paste and the special pigments incorporated into it enable accurate and easy inspection of the processed workpieces by spraying, e.g., with paint spray guns, to a fineness of 0.5 µm.
- Removal of paint residues with [high-performance cleaner R16](#).

## Properties

Precise and easy control

Color: blue

## Packaging

Can 750g
